This is a one-of-a-kind memorial. A 150-pound piece of rusted steel beam, which was once part of the World Trade Center Towers, is its focal point. The memorial is constructed with nearly 30 tons of American granite and features an eternal flame at its base.

### A Note From Our President

*Keenan Knopke*

We've been talking a lot about guarantees lately. The reason for that is we want to make families aware that we are proud to guarantee our services. Surprisingly, not all companies do.

For some companies, to guarantee a product or service has become a thing of the past. For many, it went away with handshake deals. But not at Curlew Hills. We're a family owned business. That means we are a place that a handshake still means something and that we believe in standing behind our services.

That's why we offer our 100% Service Satisfaction Guarantee. From your first call to us through long after your services are complete, we do our best to provide first quality service and to treat you with kindness, respect and dignity. And if you are not completely satisfied with any of our professional services or facilities, you will not be charged for that service. It's that simple.

We are proud to have recently given Michael Woodburn our Curlew Cares Award for his outstanding contributions to our community. Michael also opened Sutherland CrossFit last April to help others succeed through physical fitness. In addition, Michael donates his time to numerous charities, especially those dedicated to fighting cancer. We appreciate Michael for the genuine care he so graciously gives to our community.
